Renewable Energy Recruitment, **Redefined.**

Simplifying Talent Acquisition

The renewable energy market is facing a growing agency challenge. With more players entering the field daily, specialization is becoming scarce, costs are rising, professionalism is declining, and candidates are left with a subpar experience.

If you're frustrated with dealing with agencies and continuously overspending on third-party hiring, it's time to consider a better solution. If you want a more seamless, effective way to secure the candidates your business needs to thrive, our talent management solutions are the answer.

Gain access to a broader talent pool, leverage expert insights, and free up your time to focus on what matters most—without the hassle of traditional agency interactions.

About us

Who We Are

Select TMS is a specialized talent partner redefining talent acquisition for the renewable energy, energy transition and sustainable infrastructure sectors.

Unlike traditional recruitment agencies, we operate as a strategic partner, embedding ourselves into the unique challenges of your business to deliver tailored, data-driven, and value-focused solutions. By leveraging cutting-edge technology, market expertise, and a human-centered approach, we provide services that go beyond recruitment, enabling businesses to thrive and individuals to excel.

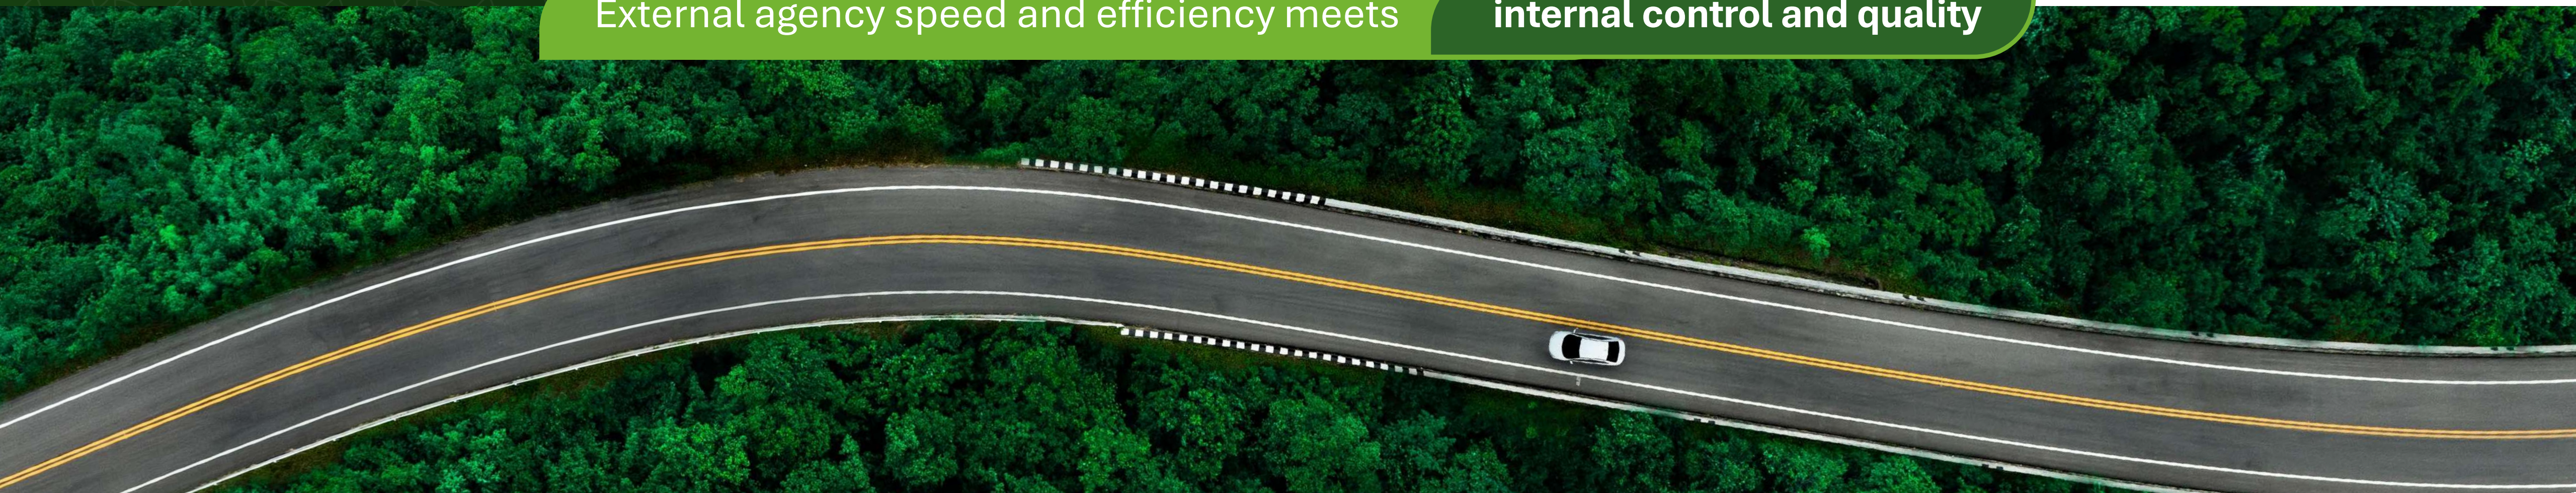

Our Company

Select TMS was founded with a clear goal: to break away from outdated recruitment practices and provide a forward-thinking, solutions-driven alternative for companies in renewable energy and sustainable infrastructure. By integrating technology, insights, and personalized service, we help organizations overcome complex hiring challenges while optimizing the candidate experience.

With experience spanning the entire energy lifecycle from asset development to operations we possess a deep understanding of the market's demands, trends, and opportunities. This allows us to deliver bespoke solutions that create real impact for our clients and candidates.

External agency speed and efficiency meets

internal control and quality

How We Do It

No placement fees – just a fixed monthly cost. Our service handles candidate identification, outreach, and delivers a pipeline of engaged candidates ready for hiring managers to interview and close. We rapidly generate talent pipelines at scale, providing significant cost savings while streamlining your recruitment process. Essentially, we manage the top-of-funnel research and outreach, ensuring a steady flow of qualified candidates for each specific tech role.

We have simplified the complex process of renewable energy talent acquisition, we offer a fully integrated approach that combines cutting-edge technology, automation, data insights, and renewable energy recruiting expertise. With our talent management solutions, you'll have access to top-tier tech talent exactly when you need it.

Our Experience

Our team at Select TMS has a proven track record of placing top-tier professionals across renewable energy sectors, including solar, wind, and energy storage. With expertise in sustainable infrastructure, we support companies leading the charge in energy transition and grid modernization. Leveraging our expansive network, we deliver the talent you need, wherever you need it. Specializing in customized solutions, we address the unique demands of renewable energy projects, from large-scale developments to niche, technical roles.

Our team has over two decades of experience and hundreds of successful placements across renewable energy sectors, Select TMS is trusted by startups, mid-sized firms, and Fortune 500 companies alike. Our commitment to quality ensures we consistently exceed expectations.

Our Approach

Partnership

We immerse ourselves in your business, becoming an extension of your HR and Talent Acquisition teams to align recruitment with your broader goals.

Precision

With sector-specific expertise and rigorous screening processes, we ensure every candidate we present is both technically qualified and culturally aligned.

Performance

We measure success by your success. Whether it's reducing time-to-hire, improving retention, or sourcing hard-to-find talent, we deliver measurable results that matter.

Our Solutions

Total Talent Management Solutions

We manage the entire recruitment lifecycle, embedding specialists in your business to align with goals and provide cutting-edge talent solutions.

Talent Acquisition Optimizer

We fill in the gaps by supporting sourcing, employer branding, and job board optimization to enhance your existing talent team.

Talent Accelerator

We provide targeted recruitment support for hiring peaks, projects, or expansions, ensuring timely and quality hires while your team focuses on daily operations.

Talent Flex

We offer flexible, on-demand recruitment expertise, integrating experienced recruiters into your team to handle hiring spikes without long-term commitments.

Building US

Clean Energy Teams

Our Core Values

Sustainability

We are passionate about enabling the renewable energy transition and are committed to reducing our environmental impact as a business. By supporting companies driving sustainable innovation, we actively contribute to a greener future.

Excellence

Our dedication to precision, quality, and innovation ensures that we consistently deliver outstanding results, meeting and exceeding expectations.

Locate

We pinpoint top talent and connect them with the right opportunities, ensuring the right match for both clients and candidates.

Elevate

We believe in forging deep, meaningful relationships with our clients and candidates. Acting as an extension of your team, we align ourselves with your goals and challenges.

Change

By leveraging the latest tools, data, and methodologies, we challenge traditional recruitment norms to provide solutions that are faster, smarter, and more impactful.

Transparency

We prioritize transparency, honesty, and ethical practices in every aspect of our business. Building trust with clients and candidates is at the heart of what we do.

What We Offer

Talent Acquisition Partnership

Customized Strategy

Developing a bespoke recruitment plan aligned with your objectives.

Talent Sourcing

Using advanced tools and a vast network to identify top candidates.

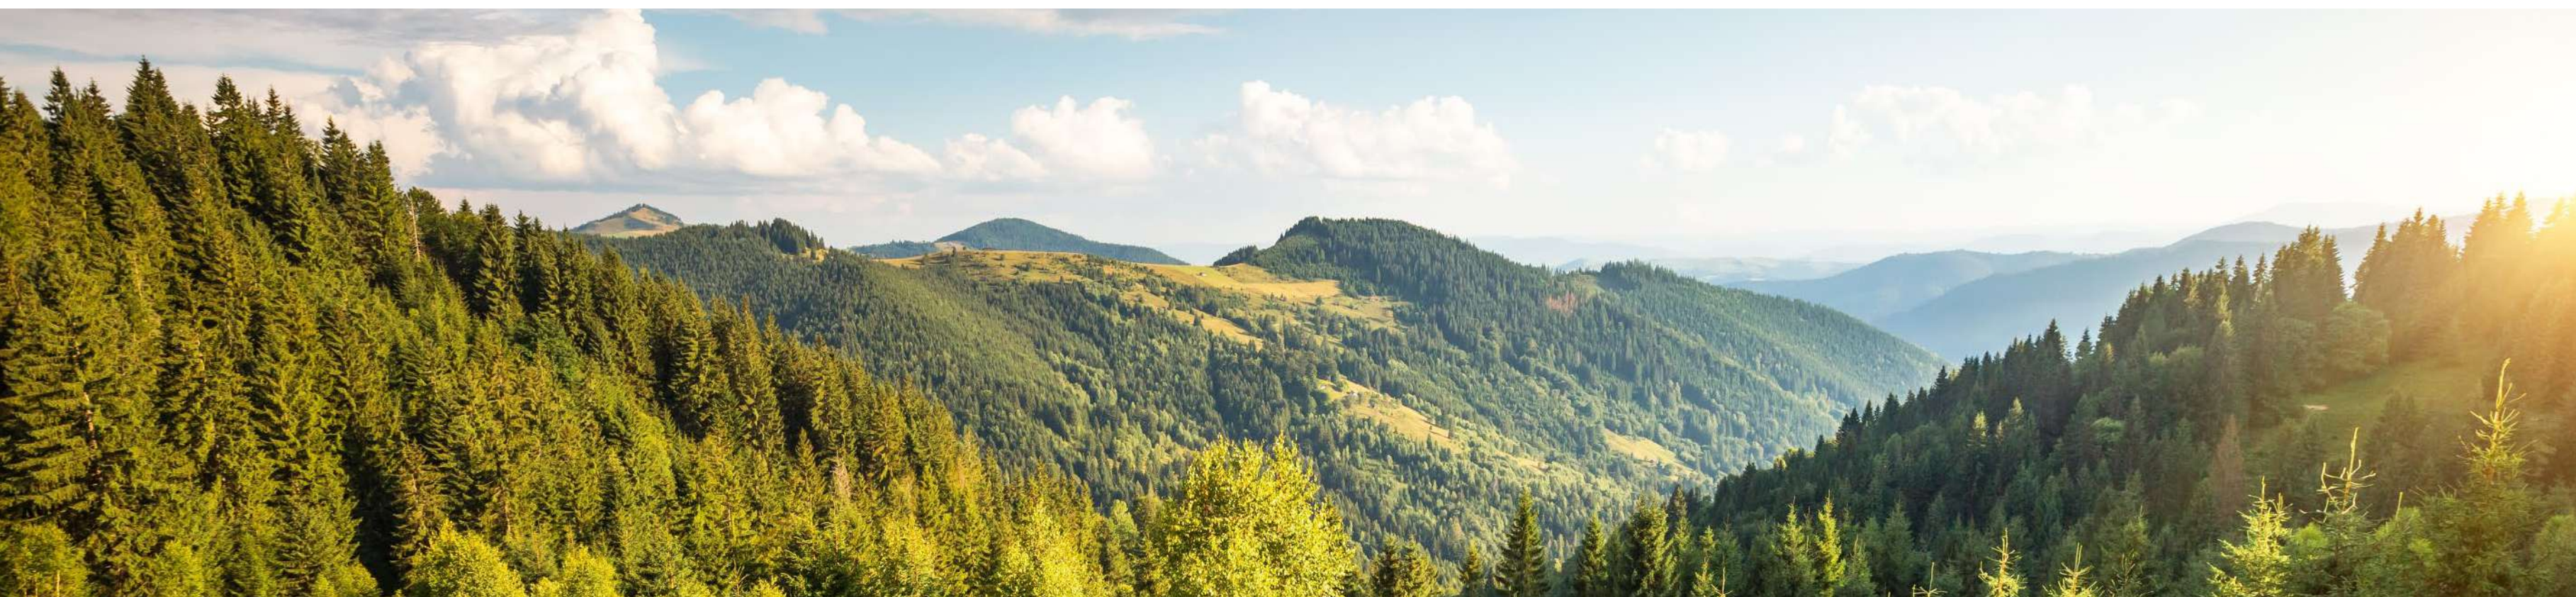

Candidate Evaluation

Conducting rigorous assessments for technical and cultural fit.

Placement & Follow-Up

Ensuring smooth onboarding and long-term success.

Case Study

syncarpha
capital

Client: Syncarpha Capital, LLC **Sector:** Solar

Engagement: 12-Month Recruitment Process Outsourcing (RPO) Agreement

Background

Syncarpha Capital a leading U.S. renewable energy investment and development firm entered a phase of rapid expansion after a major capital raise. Tasked with doubling its headcount in twelve months, the company needed a recruitment partner that could scale quickly without compromising quality or culture. Traditional contingent recruitment proved too costly and reactive, leading Syncarpha to engage **Bavana Partners (now BVNA Search)** on a **12-month RPO model**. The goal: to deliver high-quality, end-to-end hiring support while cutting recruitment spend by more than half. This partnership became the foundation for what is now the **Select TMS model**.

Results

Over 12 months, the partnership delivered **19 key hires**, including the **Deputy General Counsel (later promoted to General Counsel)**, **Director of Development – Energy Storage**, **Director of Engineering**, **Director of Community Solar**, and **Financial Controller**.

This project saved the company **over \$500,000 in potential agency fees**, reduced average time-to-hire by nearly **50%**, and achieved a **95% retention rate** after 18 months. Every placement was made through direct sourcing, ensuring cultural alignment and long-term success.

Approach

Acting as an embedded extension of Syncarpha’s internal team, we managed the entire recruitment lifecycle from workforce planning and role design to sourcing, interviews, background checks, and onboarding.

Leveraging our deep renewable energy expertise and extensive candidate network, we sourced and placed exceptional professionals across technical, legal, finance, development, and operations functions. Seamless communication, structured delivery, and data-driven insight allowed us to move with precision and speed during this critical growth phase.

Outcome

The Syncarpha partnership became the blueprint for the **Select TMS’ business model**, proving that a flexible, embedded recruitment model can deliver **more hires, higher quality, and lower cost**.

By managing every aspect of the recruitment process from branding and candidate engagement to compliance and onboarding we provided Syncarpha with a seamless, scalable hiring solution that fueled its next stage of growth.

“Partnering with Bavana was a game changer for us. They became a true extension of our team, understanding our business, our culture, and our pace of growth. The quality of talent they delivered was exceptional, and they did it faster and more cost-effectively than any traditional search firm we’ve worked with.”

— Cliff Chapman, Chief Executive Officer,
Syncarpha Capital

Why Choose Select TMS?

A New Model for Renewable Energy Recruitment

We understand that the renewable energy industry faces unique challenges. At Select TMS, we've reimagined talent acquisition to address those needs, offering solutions that prioritize cost efficiency, speed, and quality while delivering unparalleled market insights.
