

ESTHEFANIA MORANTES

Art Director | Interactive & Marketing | Senior Graphic Designer | Game Developer | Illustrator
Melbourne, VIC | 0405 108 034 | esthefaniamorantes@gmail.com | [Portfolio](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

I'm an Art Director developing marketing and interactive projects, with 7+ years of experience spanning senior graphic design, UI/UX, game design, illustration and motion. I specialize in developing colorful illustrated worlds and emotional journeys that explore culture and social commentary, and I'm equally confident driving the visual and the technical sides of a project, from brand-cohesive digital products to memorable interactive experiences. Currently completing my Master of Animation, Games and Interactivity at RMIT and showcasing my shipped titles at PAX, ACMI, GamesPond and IGDA.

CORE COMPETENCIES

From interface design to game worlds to motion sequences: this is the range I bring to a brief.

- Art Direction & Creative Direction
- Game Design & Development
- Responsive & Web Design
- Campaign & Marketing Design
- Developer Handoff & Specifications
- Production & Pipeline Management
- UI/UX & Product Design
- Illustration & Character Design
- Design Systems & Libraries
- Wireframing & Prototyping
- Narrative & World-building
- Cross-functional Collaboration
- Interactive & Motion Design
- Concept Development & Storytelling
- Brand Identity & Visual Strategy
- Micro-interactions & Animation
- Creative Team Leadership & Mentorship
- Multilingual Communication (EN/ES)

PROFESSIONAL EXPERIENCE

Game Designer & Developer · Independent / RMIT University

2025 – Present

Melbourne, AU · *Original titles: The Last Shift, Pup Up!, Capicú*

- Designed and shipped 3 original game demos from concept to playable build, handling everything from initial concept, world-building and character design through to UI, visual systems, Unity C# development and playtesting.
- Created all visual assets across each project independently, including character illustration, concept art, environment design, UI and motion assets, maintaining a distinct visual language for each game from first sketch to final build.
- Ran each title through the full studio pipeline, beginning with research, concept development and art direction before moving into asset production, UI design and code.
- Showcased The Last Shift and Capicú at ACMI and IGDA Melbourne to audiences of ~80 people per event, receiving live player feedback that directly shaped each build iteration; gameplay trailers and a creative development journal are publicly available.

Senior Graphic & Digital Designer · Bavana Partners

Dec 2024 – Present

Melbourne, AU · *Clients: BVNA Search, Select TMS, ZymeWett, OMNI*

- Delivered 4 end-to-end responsive web platforms on time and within brand guidelines, measured by zero post-launch design revisions, by leading complete UI/UX cycles from discovery and wireframes through to high-fidelity Figma design and Framer implementation.
- Accelerated production timelines across concurrent client projects by building a reusable component library and design system in Figma, reducing repetitive design work by an estimated 30% per project sprint.
- Extended client brand value into digital channels by conceiving and producing motion graphics and micro-animated content, resulting in high-engagement assets across web and social platforms.
- Raised output quality across the team by providing hands-on creative direction and mentorship, ensuring all deliverables met senior craft standards before client presentation.

Graphic & Digital Designer · Mooba Agencia

Dec 2023 – Dec 2024

Melbourne, AU

- Delivered digital marketing and retail campaigns from brief to final asset across multiple concurrent clients, measured by on-time delivery and executive sign-off, working directly with leadership to align visual direction with business objectives.
- Expanded the studio's creative output range by introducing illustration and branded collateral services, resulting in more holistic brand solutions and new revenue streams for key accounts.
- Improved cross-platform brand consistency by leading UI/UX redesigns of internal digital touchpoints, scaling visual systems across web, campaign and retail environments.

Graphic Designer (Part-time) · Anda Design Studio

Jun – Dec 2023

Colombia, On-site

- Built cohesive social media visual presences for multiple clients by designing systematic content libraries and brand-aligned graphic templates, enabling faster and more consistent production across platforms.
- Expanded client content capabilities into video by producing audiovisual content and motion graphics, broadening the studio's deliverable range and adding measurable value to client retainers.

Freelance Illustrator & Motion Designer

2019 – Present

Remote, Global Clients

- Sustained a 7-year international client base delivering digital illustration, character design, animation and motion design across diverse industries, measured by repeat engagements and cross-border referrals.
- Produced motion design, character illustration and brand identity work for clients across entertainment, retail and consumer goods, building long-term relationships through consistent creative quality and reliable delivery.

TECHNICAL SKILLS

Design & Prototyping: Figma (components, auto-layout, dev mode, prototyping), Framer, Adobe XD

Adobe Creative Suite: After Effects, Illustrator, Photoshop, InDesign, Premiere Pro

Illustration & Motion: Procreate, Toon Boom Harmony, After Effects; character design, concept art, storyboarding, motion graphics

Game Development: Unity, C# scripting, level design, interactive systems, UI implementation, rapid prototyping

Interactive & Real-time: TouchDesigner; micro-interactions, animation, motion graphics

AI Tools: Adobe Firefly, Midjourney, Claude, Gemini; generative AI across design and creative production workflows

Ways of Working: Agile sprints, client discovery & briefs, developer handoff, cross-functional collaboration, creative direction

Languages: Spanish (Native), English (C1)

VOLUNTEERING

Student Volunteer · KIRRIIP, RMIT

Aug – Dec 2025

Melbourne, AU

- Supported inclusive student engagement activities by fostering a welcoming environment and providing multilingual (Spanish) support to connect with diverse participants.

Social Media & Digital Content Designer · RMITV

Feb – Jun 2025

Melbourne, AU

- Designed visual identities and content systems for multiple live TV productions, increasing social output consistency and audience engagement by giving each show a distinct, consistent look across all digital platforms.
- Translated brief-to-broadcast in a fast-turnaround environment, producing finalised visual assets for live TV within tight deadlines while maintaining each show's identity.

EDUCATION

Master of Animation, Games and Interactivity · RMIT University

2025 – Present

Specialisation in game design, interactive systems, motion and creative production across digital and physical media.

Bachelor of Graphic Design · Fundación Universitaria del Área Andina

2020 – 2023

SELECTED PROJECTS

Games & Interactive

- **Capicú** — original 2.5D sandbox platformer (Unity); full art direction, illustration and interactive systems; a personal story of Latin American culture told through a yoyo. Playtested with general audiences, exhibited at IGDA Melbourne to ~80 attendees, and shipped live on Steam. esthef.itch.io/capicu
- **The Last Shift** — original 2D narrative game demo; concept, art direction, character design, UI and Unity C# by a single designer. esthef.itch.io/the-last-shift
- **Pup Up!** — original game demo; concept, character design, UI and interactive systems. <https://esthefaniamorantes.framer.website/making-of-pup-up>

Client Web & Digital

- **Select TMS** — end-to-end UI/UX for a transport-management SaaS platform (selecttms.framer.website).
- **ZymeWett** — brand identity and responsive web design for a biotech client (zymewett-draft.framer.website).
